PARIS, July 12.—The French government will accept with pleasure and without reserve the invitation to the conference on limitation of armaments, according to a letter sent to the American embassy here by the government for President Harding. Premier Briand publicly expressed thanks to President Harding for "his noble initiative" while the chamber broke into cheers. The senate also was aroused to enthusiasm.

It was said at the foreign office today that Premier Briand probably would represent France at the proposed conference, but that whoever was sent would go with the idea of co-operation wholeheartedly in any scheme for disarmament compatible with the security of France. The French government makes no reservations regarding the proposed conference.

HARDING SEES PERIL IN SOLDIER AID BILL

(By Associated Press)
WASHINGTON, D. C., July 12.—Enactment at the present moment of adjusted compensation legislation for veterans of the world war would "greatly imperil the financial stability of our country," President Harding told the senate in the second address he has made to that body during his administration. Every obligation is due to the disabled and dependent, the president said, and the executive branch owed it to the country "frankly to state the difficulties we daily are called upon to meet and the added peril this measure would bring. This menacing effort to expand billions in gratuities will imperil our capacity to discharge our first obligations to those we must not fail to aid," he said.

The declining prices of automobiles makes it hard on the thieves who steal them, and to maintain their income we presume they will have to steal more.

EVEN HUNS COMMEND PRESIDENT FOR ACTION

(By Associated Press)
BERLIN, July 12.—The Volks Zeitung describes President Harding's invitation to the disarmament conference as "a political event of foremost importance." It says: "If the American president succeeds in carrying his undertaking to a successful conclusion, then the nations of the world will have realized a longing of centuries and President Harding will have set up for himself a monument more durable than the fame of all generals of history."

DESTRUCTION OF STILL MAY CAUSE COMPLICATIONS

As a result of the destruction of that enormous still by Nye county officers last week, the largest ever discovered in the west, and, in fact, in the world (2) as published in a Tonopah local paper, an expose is promised which may result in a real sensation among a number of higher-ups. It is claimed that the Nye county officers had no jurisdiction in reaching out into Esmeralda county, and that furthermore, the state police were not sent in here to ferret out illicit manufacturers of moonshine. Further, it has become known that two government officers will arrive here tomorrow to conduct an investigation with a view to collecting the revenue that rightfully belongs to Uncle Sam for the three barrels taken captive.

While it was claimed that the Higuor was destroyed, there was no evidence of that fact at the scene of the conflagration where a building was destroyed. On the other hand, it is alleged that three barrels of splendid moonshine has been accounted for, and the government will proceed to investigate to determine who it is that shall pay the revenue tax.

Sheriff Box of Esmeralda county paid an official visit to Tonopah yesterday to look into the matter, and it is said he is "some warm" under the collar, objecting most strenuously to Nye county authorities reaching beyond their official domain.

As a result of the discovery that three barrels of whiskey were missing, a well-known mining man of Tonopah seems to have gotten "in dutch" with the local authorities because he was so good as to return to the owner an auto tire he found on the road leading to this town.

This is to be one of those hula-bula sensations that will be talked from every wagging tongue in southern Nevada. Just wait for the explosion of the moonshine bomb. Had the paper down the street kept mum nothing would have come of this illegal confiscation. Officers cannot override the law, if they are officers.

DEATH SUMMONS FRANK WALSH TO GREAT BEYOND

When death closed the tired eyes and stilled the weary heart of Frank Walsh at 9:15 o'clock this morning, one of the salt of this earth passed on to the Great Beyond. The citizenship of Tonopah and the whole of Nevada suffered an irreparable loss and gloom pervaded the atmosphere of those communities where in he was so well and favorably known.

He was an honorable gentleman, and possessed one of those lovable dispositions of the old school that are so fast disappearing from view; he was indeed a kind and loving husband and father, an upright and honorable citizen, and a sincere and true friend, counting his friends by the number of his acquaintances.

Frank Walsh, pioneer of Tonopah and trail blazer of the middle west, is gone, and his friends mourn; his relatives grieve. Born in Ireland 57 years ago, he emigrated to the United States when 19 years of age. His advent into the mining fields of the west occurred at Leadville, Colorado, where he remained for a long period. Later he moved to Salida, that state, and still later he took up his residence at Victor. At Victor he became an honored member of the Benevolent Protective Order of Elks, maintaining his membership with the lodge up to the moment of his demise. In 1905 Mr. Walsh came to Tonopah, this place ever since having been his home. A skilled miner, his services were always in demand, although for many years he served as a peace officer of this city, performing his duties in that

BRITAINS ACCEPTANCE OF PRESIDENT'S OFFER HAILED BY STATESMEN

(By Associated Press)
LONDON, July 12.—Canadian Press.—The world is on the eve of one of the most epochal events in history. This is the verdict of newspapers and statesmen here following President Harding's offer and the British government's acceptance. While the conference in Washington is not likely to be held within a couple of months, dominant premiers, it is understood, probably will cut short their deliberations here and return home to prepare for it. Discussion of the naval problem now is out of the question.

After preliminary and technical work of the conference is completed, the Daily Mail says, Premier Lloyd George may go to the United States to attend to the final amending of the agreement. It appears to be the consensus of opinion that the conference will be held during the coming autumn or at the latest, during the early months of 1922.

(By Associated Press)
WASHINGTON, D. C., July 12.—Favorable responses are understood to have been received from all but one of the powers to which the United States suggested a conference on reduction of armaments and related questions.

DE VALERA GIVEN OVATION IN LONDON

(By Associated Press)
LONDON, July 12.—De Valera and other Republican leaders arrived from Dublin today for the conference with Premier Lloyd George. They received a tumultuous reception.

straight, honest and fearless manner which brought words of commendation from all classes of citizens of this community. For the last two and a half years Mr. Walsh had been employed as hoisting engineer at the Gold Zone mine at Divide, and his comrades in all walks of human endeavor are deeply grieved over his passing.

When Frank Walsh, loving husband and father, passed to the Unknown World, he was surrounded by his wife and daughter, Miss Loretta, and his sister, Mrs. L. L. Gilligan of Los Angeles, who was summoned to Tonopah following the illness with which he was last stricken on June 26. In addition to the relatives above mentioned he is survived by a sister, Mrs. Walter Cleary, of Denver, Colorado; John and James Walsh, of Dublin, Ireland, and three brothers-in-law, Edward, Frank and Patrick Malley, of Carson.

Arrangements for the funeral services, which will be conducted from the Catholic church, will be announced later. Services from the late residence will be strictly private, and it was the wish of the deceased that flowers be omitted.

(By Associated Press)
WASHINGTON, D. C., July 12.—All cargoes of intoxicating liquors shipped into this country from foreign countries without a prohibition permit have been ordered seized and forfeited, George W. Ashworth, chief of the treasury customs division, announced today.

MORE CONTRIBUTIONS FOR JURKOVICH FAMILY

This is said to be a hard world, and these days we know it is hard indeed.
